1 Introduction

Once a year PTV Logistics releases the product PTV Admin Boundaries which, in addition to the municipal boundaries, also includes the boundaries of the districts, administrative districts and federal states. These release notes highlight some general information about the admin boundary world bundle as well as changes between the current and previous release.

The data set PTV Admin Boundaries is based on HERE Administrative Boundaries. The data is built on the most accurate and reliable information possible. However, data gaps or errors cannot be excluded.

2 Detailed information

Version:	231E0
Coverage:	Global
Release Date:	July 2023
Enhancements:	Street alignment has been completed, when possible, for Malaysia, Singapore, and Vietnam. Alignment will be improved as new sources become available. Enhanced layers are based on the HERE 231E0 database. Base layers are based on the HERE 221G0 database.

Additional information: A statistics mapping file is included with the product package. Unspecified known areas/neighbourhoods and associated counts have been added.

Since Shapefiles have a 2GB size limit, we have made the following changes to the packaging of the Enhanced layers in the Shapefile product. The packaging of the Base layer and FGDB product has not been modified.
